

HEALTHASSIST
MANAGEMENT

Registered Nurse

We are currently seeking a Registered Nurse to join our Health division. Due to strong demand in the Flu vaccination, Drug and Alcohol testing, and Pre-Employment Medical Assessment services, positions are now vacant in both the Liverpool and Sydney CBD branches of Assist Group. Assist Group is a progressive multi faceted organisation, offering 360 degree HR health solutions to companies. Health Management Assist is also an Accredited WorkCover NSW WRA Provider. We are a leader in the industry in managing workplace injuries, promoting health and wellness strategies and preventing injuries through innovative OH&S, Health and wellness programs and systems. To secure the opportunity of making your contribution to this unique and progressive organisation, you will have a high energy, positive and "can do" approach demonstrating:

- Strong and highly developed communication and interpersonal skills
- Proven ability to work closely within a team of multi-disciplinary professionals
- Background in Vaccination (certificate preferred but not essential), Vena puncture, pre-op prep.
- Organisation and time management skills

Where are you working now?

You are working for a Hospital or smaller clinic, as a Registered Nurse but would welcome the flexibility of a smaller case load, very little night shift, achievable KPI's and a nicer, supportive medical working environment.

You are working in a rigid environment, with very little room for flexibility, career advancement and incentives.

You are working for an insurer or employer and would like to get out there face to face while having a large variety of workplaces.

You would enjoy the experience of travelling nationally, from a company dedicated to sustainable change management and work/life balance, through work from anywhere facilities.

What our people have to say:

"I have worked here over four and a half years, we are a true young vibrant team... the job is hard enough but the people make it easy." – RC

"I have worked with other providers... with Assist, promises are kept, meetings are kept and your input as a professional is respected and valued... also the working environment is pretty good too" - OT

Remuneration for this position will be highly competitive and commensurate with skills and experience. 3rd Party Applications will not be considered for this position. Please make your inquire direct to Assist Group. We will not accept approaches from Recruitment Agencies on your behalf. Best of luck with your career seeking and thanks for reading.
